April 14

Room 3250

9:30am-5:30pm

April 15

Room 7200

9:30am-12:30pm

[Register here](#)

The concept of racial capitalism has been embraced by scholars and activists as a means of exploring the common roots of contemporary social and ecological crises.

These include unprecedented environmental degradation, extreme economic inequality, the resurgence of authoritarian ethno-nationalism, increasingly militarized and racialized policing and border control, and the expulsion to the margins of society of growing numbers of humans, including persons who are unemployed, incarcerated, or homeless
